

SAFETY DATA SHEET

VETERINÆR AL AFFEDTER

The safety data sheet is in accordance with Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

SECTION 1: Identification of the substance / mixture and of the company / undertaking

Date issued 04.01.2022

Revision date 17.11.2022

1.1. Product identifier

Product name Veterinær Al Affedter

REACH Reg. No. 01-2119480162-45-XXXX

EC No. 927-285-2

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance / preparation Industrial applications.

1.3. Details of the supplier of the safety data sheet

Company name Jydsk Auto Make-Up

Office address Ole Rømers Vej 11

Postcode 8670

City Låsby,

Country Danmark

Telephone number +45 86951322

Email hr@jydskautomakeup.dk

Website www.jydskautomakeup.dk

1.4. Emergency telephone number

Emergency telephone	Telephone number: 82 12 12 12 Description: Giftlinien
----------------------------	--

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP / GHS]	Asp. Tox. 1; H304 EUH 066
---	------------------------------

2.2. Label elements

Hazard pictograms (CLP)

Composition on the label	Hydrocarbons, C11-C14, isoalkanes, cyclics, <2% aromatics 100 %
Signal word	Danger
Hazard statements	H304 May be fatal if swallowed and enters airways.
Precautionary statements	P301+P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor / physician. P331 Do NOT induce vomiting.
Supplemental label information	EUH 066 Repeated exposure may cause skin dryness or cracking.

2.3. Other hazards

PBT / vPvB	The substance does not meet the criteria for PBT or vPvB.
-------------------	---

SECTION 3: Composition / information on ingredients

3.1. Substances

Substance	Identification	Classification	Contents	Notes
Hydrocarbons, C11-C14, isoalkanes, cyclics, <2% aromatics	EC No.: 927-285-2 REACH Reg. No.: 01-2119480162-45-XXXX	H304 EUH 066	100 %	

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation	Seek fresh air. Seek medical advice in case of persistent discomfort.
-------------------	---

Skin contact	Remove contaminated clothing. Wash skin with soap and water. Seek medical advice in case of persistent discomfort.
Eye contact	Flush immediately with water (preferably using eye wash equipment) for at least 5 minutes. Open eye wide. Remove any contact lenses. Seek medical advice.
Ingestion	Seek medical advice immediately. Wash out mouth thoroughly and drink 1-2 glasses of water in small sips. Do not induce vomiting.

4.2. Most important symptoms and effects, both acute and delayed

General symptoms and effects	May cause chemical pneumonia if ingested or vomited.
-------------------------------------	--

4.3. Indication of any immediate medical attention and special treatment needed

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media	Extinguish with powder, foam, carbon dioxide or water mist.
Improper extinguishing media	Do not use water stream, as it may spread the fire.

5.2. Special hazards arising from the substance or mixture

Hazardous combustion products	Hazardous fumes are formed in fire conditions.
--------------------------------------	--

5.3. Advice for firefighters

Personal protective equipment	Wear fresh air respiratory protective equipment.
--------------------------------------	--

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures	Stay upwind/keep distance from source.
Personal protection measures	Wear protective gloves / protective clothing / eye protection / face protection.

6.2. Environmental precautions

Environmental precautionary measures	Prevent spillage from entering drains and/or surface water. Notify proper authorities in case of contamination of soil or aquatic environment or discharge to drains.
---	---

6.3. Methods and material for containment and cleaning up

Containment	Contain and absorb spill with sand or other absorbent, non-combustible material and transfer to suitable waste containers.
--------------------	--

6.4. Reference to other sections

Other instructions	See section 8 for type of protective equipment.
---------------------------	---

See section 13 for instructions on disposal.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Handling

All work must be carried out under well-ventilated conditions. Wash hands before breaks, before using restroom facilities, and at the end of work. Do not eat, drink or smoke during work. Running water and eye wash equipment must be available. See section 8 for information about precautions for use and personal protective equipment.

7.2. Conditions for safe storage, including any incompatibilities

Storage

Keep in tightly closed original packaging.
 Protect against direct sunlight. Store in a dry, cool, well-ventilated area.

7.3. Specific end use(s)

Specific use(s)

See application section 1

SECTION 8: Exposure controls / personal protection

8.1. Control parameters

Substance	Identification	Exposure limits	TWA Year
Hydrocarbons, C11-C14, isoalkanes, cyclics, <2% aromatics			

8.2. Exposure controls

Safety signs

Eye / face protection

Suitable eye protection

Wear safety goggles.

Hand protection

Skin- / hand protection, short term contact

Wear protective gloves made of nitrile rubber. Wear protective gloves made of neoprene rubber. Wear protective gloves made of Polyvinyl alcohol (PVA).

Skin protection

Suitable protective clothing

Wear suitable protective clothing.

Respiratory protection

Respiratory protection necessary at	In case of inadequate ventilation wear respiratory protection.
Recommended respiratory protection	Filter apparatus type: A

Appropriate environmental exposure control

Environmental exposure controls	Ensure compliance with local regulations for emissions.
---------------------------------	---

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	Liquid
Colour	Colourless
Odour	Characteristic Weak
Melting point / melting range	Value: -45 °C
Boiling point / boiling range	Value: 180 °C
Flash point	Value: 64 °C Method: Closed Cup
Explosion limit	Value: 0,5 – 5 Vol%
Vapour pressure	Value: 0,067 kPa Temperature: 20 °C
Vapour density	Value: 4,5 Air = 1
Bulk density	Value: 0,76 g/cm ³ Temperature: 20 °C
Solubility	Medium: Water Comments: Insoluble
Auto-ignition temperature	Value: 228 °C
Viscosity	Value: 1,6 cSt Method: Kinematic Temperature: 40 °C

9.2. Other information

SECTION 10: Stability and reactivity

10.1. Reactivity

10.2. Chemical stability

Stability	The product is stable when used in accordance with the supplier's directions.
-----------	---

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions Product vapours are heavier than air and may spread along floors. Vapours may form explosive mixtures with air.

10.4. Conditions to avoid

Conditions to avoid Avoid heating and contact with ignition sources.

10.5. Incompatible materials

Materials to avoid Avoid contact with strong oxidising agents.

10.6. Hazardous decomposition products

Hazardous decomposition products No one at the recommended storage conditions.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Substance Hydrocarbons, C11-C14, isoalkanes, cyclics, <2% aromatics

Acute toxicity

Type of toxicity: Acute
Effect tested: LD50
Route of exposure: Oral
Value: > 5000 mg/kg
Animal test species: Rat
Test reference: Supplier

Type of toxicity: Acute
Effect tested: LD50
Route of exposure: Dermal
Value: > 5000 mg/kg
Animal test species: Rabbit
Test reference: Supplier

Type of toxicity: Acute
Effect tested: LC50
Route of exposure: Inhalation.
Duration: 4 h
Value: > 5000 mg/m³
Animal test species: Rat
Test reference: Supplier
Comments: Dusts and mists

Other information regarding health hazards

Assessment of acute toxicity, classification Based on existing data, the classification criteria are deemed not to have been met.

Assessment of skin corrosion / irritation, classification Based on existing data, the classification criteria are deemed not to have been met.

Assessment of eye damage or irritation, classification	Based on existing data, the classification criteria are deemed not to have been met.
Assessment of respiratory sensitisation, classification	Based on existing data, the classification criteria are deemed not to have been met.
Assessment of skin sensitisation, classification	Based on existing data, the classification criteria are deemed not to have been met.
Skin contact	Degreases the skin. Long-term exposure may cause irritation and possible infection.
Assessment of germ cell mutagenicity, classification	Based on existing data, the classification criteria are deemed not to have been met.
Assessment of carcinogenicity, classification	Based on existing data, the classification criteria are deemed not to have been met.
Assessment of reproductive toxicity, classification	Based on existing data, the classification criteria are deemed not to have been met.
Assessment of specific target organ toxicity - single exposure, classification	Based on existing data, the classification criteria are deemed not to have been met.
Assessment of specific target organ toxicity - repeated exposure, classification	Based on existing data, the classification criteria are deemed not to have been met.
Assessment of aspiration hazard, classification	Can be fatal if ingested and enters the airways.

11.2 Other information

SECTION 12: Ecological information

12.1. Toxicity

Substance	Hydrocarbons, C11-C14, isoalkanes, cyclics, <2% aromatics
Aquatic toxicity, fish	Value: > 1000 mg/L Test duration: 96 h Species: Oncorhynchus mykiss Method: LL50 Test reference: ECHA
Substance	Hydrocarbons, C11-C14, isoalkanes, cyclics, <2% aromatics
Aquatic toxicity, algae	Value: > 1000 mg/L Test duration: 72 h Species: Raphidocelis subcapitata Method: EL50 Test reference: ECHA
Substance	Hydrocarbons, C11-C14, isoalkanes, cyclics, <2% aromatics
Aquatic toxicity, crustacean	Value: > 1000 mg/L Test duration: 48 h Species: Daphnia Magna Method: LL50

Test reference: ECHA

12.2. Persistence and degradability

Persistence and degradability description/evaluation	Readily biodegradable.
Substance	Hydrocarbons, C11-C14, isoalkanes, cyclics, <2% aromatics
Biodegradability	Value: 77,6 % Method: O2 consumption Test period: 28 d

12.3. Bioaccumulative potential

Bioaccumulation, comments	Test data are not available.
---------------------------	------------------------------

12.4. Mobility in soil

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB assessment	The substance does not meet the criteria for PBT or vPvB.
------------------------------------	---

12.6. Endocrine disrupting properties

12.7. Other adverse effects

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Appropriate methods of disposal for the chemical	Collect spills and waste in closed, leak-proof containers for disposal at the local hazardous waste site.
EWC waste code	EWC waste code: 140603 other solvents and solvent mixtures
National waste group	C

SECTION 14: Transport information

14.1. UN number

Comments	The product is not covered by the rules for transport of dangerous goods by road and sea according to ADR and IMDG.
----------	---

14.2. UN proper shipping name

14.3. Transport hazard class(es)

14.4. Packing group

14.5. Environmental hazards

ADR/RID/ADN	Nej
IMDG	Nej

14.6. Special precautions for user

14.7. Maritime transport in bulk according to IMO instruments

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations / legislation specific for the substance or mixture

National regulations	-
MAL group (DK)	3-1 (2003)
Declaration No.	4019826

15.2. Chemical safety assessment

Chemical safety assessment performed	Yes
--------------------------------------	-----

SECTION 16: Other information

List of relevant H-phrases (Section 2 and 3)	EUH 066 Repeated exposure may cause skin dryness or cracking. H304 May be fatal if swallowed and enters airways.
Training advice	No special training is required, but a thorough knowledge of this safety data sheet should be a prerequisite condition.
